# PRICES GO UP AGAIN

Market Makes Stand Against the Reaction of Thursday.

READING SHOWS STRENGTH

Pulls the Market Up Until Just Before the Closing.

(By Associated Press.)

NEW YORK, July 8.—The forces in the market making for higher prices made a stand to-day against the reaction which developed yesterday, and turned the course of prices upward again. Support was in ovidence from the outset, and although considerable seiling to realize had to be absorbed in the early dealings, carrying prices backwards several times, these offerings diminished and opened the way for the late advance.

The upward movement which spread throughout the stock market in the afterneon had its root in the increase in Reading, which was lifted steadily upwards on the continued absorption of heavy books of the stock. There was no news to account for the strength of this stock unless it might be the statistics of the anthracite output for June, showing the hirgest output with the single exception of January, 1903, in the history of the trade. Readings 2.14 point advance continued to lift the market until the slight recessions just before the closing on profit takings. The closing was, therefore, "rather irregular, but only slightly belaw the heat.
